Mike,

Attached is a spreadsheet with select pesticides registered for seed treatment of field corn. I have categorized them by type (nematicide, insecticide, or fungicide), as well as FRAC or IRAC mode of action classification. Out of the data you

Ex. 5 Deliberative Process (DP)

If benchmarks are needed for other media, such as to evaluate wet cake application to farm fields, or if you need physical property information, such as solubility, vapor pressures, or environmental persistence, please let me know.

Kelly

If possible, please send me the spreadsheet by COB today. I don't need a comprehensive listing of all pesticides registered for seed treatment, just the most prevalent and those detected at the facility. I have a meeting tomorrow morning where I need to discuss the human health and ecological benchmarks. Thanks.
